AREAS OF EXPERTISE

Front-end: JavaScript – TypeScript - Next.js – AJAX – JSON - HTML5 - CSS3 – jQuery - Bootstrap
Back-end: Node.js - Express.js - RESTful API – Clerk – Convex - SQL & No-SQL – Serverless - Microservices
Tools: AWS - Git - Adobe XD/Figma – Webpack – PNPM – PowerShell - Vs Code - Jest.js - GitHub Actions
Other: ADA & WCAG - Semantic Markup – Sitecore – Sass -Tailwind CSS - React.js – Vercel – Jira – Asan

PROFESSIONAL EXPERIENCE

SENIOR FRONTEND DEVELOPER
College Loan Corporation - Las Vegas, NV (*2023 – Present)*

• Lead the transition of 4 applications to a headless server architecture leveraging JSS with Next.js & Sitecore, implementing robust APIs and decoupling frontend from backend logic to bolster scalability and performance.

• Mentored 5 junior developers, offering technical guidance and fostering continuous improvement within the team.

• Formulated developer guides and API documentation to expedite the onboarding process for new team members, leading to a 40% reduction in ramp-up time and enhanced collaboration within the development team.

• Collaborated closely with UX/UI designers to communicate design requirements, provide feedback on user interface prototypes, and ensure alignment between design vision and technical implementation.

FRONTEND DEVELOPER
HomeLister, Inc – Los Angeles, CA (*2022 – 2023)*
• Co-developed a robust design system with 500+ components, streamlining codebase and developer experience.

• Implemented continuous integration practices, automating build, test, and deployment pipelines to ensure efficient delivery of high-quality code.

• Transformed Figma designs into 100+ reusable features, solidifying code efficiency and long-term maintainability.

• Personalized client experiences by seamlessly integrating the Google Geocoding API, thereby optimizing service delivery and elevating the effectiveness of targeted ad placements.

FRONTEND DEVELOPER
Estrada Premier Printing - Las Vegas, NV (*2018 – 2022)*

• Designed and developed a robust React-powered admin dashboard, fortifying data integrity and safeguarding security through careful integration with Express server APIs and MongoDB.

• Optimized the admin dashboard for performance and accessibility, employing techniques such as code splitting, lazy loading, and adherence to WCAG accessibility standards resulting in 30% speed improvement across the board.

• Architected streamlined Node.js RESTful endpoints to automate over 600 complex job pricing calculations, resulting in substantial improvements in processing efficiency and overall performance.

SYSTEMS ANALYST
Zappos Inc - Las Vegas, NV (*2017 – 2018)*

• Leveraged Python to fortify data-driven financial strategies, providing actionable insights for leadership decisions.

• Revamped Inventory Management by optimizing over 70 ETL scripts, resulting in heightened accuracy for shipment and return tracking at SDF9 and SDF4 Amazon fulfillment centers.

• Mentored a team of 6 team members on software best practices, fostering a culture of continuous learning and growth.

EDUCATION

Computer Science – B.S | University of Nevada - Las Vegas   **Accounting – B.S |** Grand Canyon University
