▪ REST APIs ▪ HTML5 ▪ CSS ▪ AWS ▪ Python ▪ GitHub ▪ Git ▪

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER   Feb 2023 – Present
Estrada Premier Printing - Las Vegas, NV

- Developed a proof approval full-stack tool using Next.js and Node.js to collect client consent prior to printing the full job. The digital transition of the proof approval process significantly reduced print processing times by 40%, resulting in improved customer satisfaction and increased sales.
- Refactored code base to improve reusability and code efficiency, resulting in a significant reduction in code complexity.
- Developed and implemented an intuitive admin dashboard using Next.js & MongoDB to assist customer support team in processing of print jobs.

SOFTWARE ENGINEER   Jun 2022 - Jan 2023
HomeLister, Inc - Las Vegas, NV

- Developed clean, performant, and reusable UI components using web technologies and REST APIs in collaboration with cross-functional teams, including product managers, designers, and engineers.
- Collaborated in the integration of Storybook to document components and automate the UI testing workflow.
- Worked with engineers and designers to develop a design system, enhancing code scalability, maintainability, and consistency.
- Transformed Figma designs into robust components, following the DRY principle for increased efficiency and reusability.
- Used Next.js & SWR to provide user with a lighting fast and reactive experience.

SOFTWARE ENGINEER   Nov 2019 - Jun 2022
Estrada Premier Printing - Las Vegas, NV

- Spearheaded cross-functional efforts to create and maintain APIs for accurate pricing calculations of printing jobs, resulting in a streamlined pricing process for internal stakeholders and external customers.
- Integrated third-party services, including Stripe, to streamline workflows and improve the user experience. The integration of Stripe facilitated online payments for customers and resulted in a 20% increase in online sales.
- Created comprehensive documentation of operations and workflows, enabling teams to minimize interruptions and ensure seamless collaboration.
- Worked with product management, design, and customer support to ensure internal tools meet all business requirements.
- Implemented front-end design systems and style guides to ensure consistency and efficiency across multiple products and platforms.
- Integrated Cloudinary to securely store and retrieve customer design assets, resulting in a 20% reduction in printing delays and a 10% increase in print job throughput.

EDUCATION

Computer Science – B.S | University of Nevada - Las Vegas
Accounting – B.S | Grand Canyon University
